

Freeze

In space, there is no one to hear you...FREEZE.

You are all alone on an ice planet in an uncharted sector of the galaxy. You have crashed and your ship's Mondo Crystal Propulsion Unit is out of commission. Your mission is to descend into the planet's underground caverns to capture a new Mondo Crystal. If you succeed and return to your ship, you can blast off again!

Your quest will be perilous and fraught with danger. Keep moving at all times to ward off the deadly cold of your subsurface prison. Battle ice-throwing Freeze-a-Bites and winged Freeze-a-Bites with your blaster. Fly around them if you do not choose combat. Blast your way through ice walls as you go deeper into the planet, but don't forget to recharge your jet pack and flamer with the small crystals filtered throughout the mine.

Your quest for the Mondo Crystal will also earn you points! Power crystals earn 25 points. Flying Freeze-a-Bites reward 250 points, while flying Freeze-a-Bites yield 500 points. Intercepting a snowball earns 500 points. For a successful return to the surface with your Mondo Crystal, you

receive 1000 points multiplied by the number of your round.

FREEZE

Proof positive that the hottest game in town is as cold as ice.

For more information about FREEZE, contact your nearest Cinematronics' distributor.
